

An Open Letter to Stephen Harper

Your recent comments deliberately painting the Liberal Party as anti-Israel were untrue and disgraceful.

This is not a partisan issue. As Canada's Prime Minister it was self-serving and offensive for you to attempt to make it one. You have failed the fundamental test of political leadership: to bridge rather than exploit divisions. This is nothing more than shameless politicking, and Canadians deserve better.

We, the undersigned members of the Liberal Party, proudly support the State of Israel and take offence to your comments. We urge you to make a public apology.
